SUBJECT: SCAN MA Contract Updates and Alicia Quaco Introduction

On December 22, 2025, we shared an update on important information related to the new SCAN MA HMO product now included in your PSW Provider Agreement for 2026. We are excited about this partnership and the opportunity it brings to offer a strong, high-quality Medicare Advantage option to our community. This collaboration reinforces our shared commitment to coordinated, value-based care and supports providers with a model designed for better access, improved outcomes, and long-term sustainability.

As we bring in the new year, we are also excited to introduce our new Provider Network Executive: **Alicia Quaco**! Alicia brings deep experience in helping provider networks succeed, with a proven track record of strengthening performance, improving alignment, and building trusted relationships across diverse clinical communities. She joins us after most recently serving as President of the Eastside Health Network, where she played a key role in strengthening relationships and advancing network performance. In her new role, Alicia will lead our network engagement strategy, and she is eager to partner closely with you as we work to elevate the provider's experience and accelerate the impact of value-based care.

Alicia and the entire provider network team are here to assist while this new partnership is launched. For 2026, you and your practice's SCAN MA HMO patients will have access to PSW's support services, including:

- Care Management, as applicable
- Utilization Management
- Claims submissions and payments
- Physician & practice resources
